

CRYPTO HEDGE CAPITAL

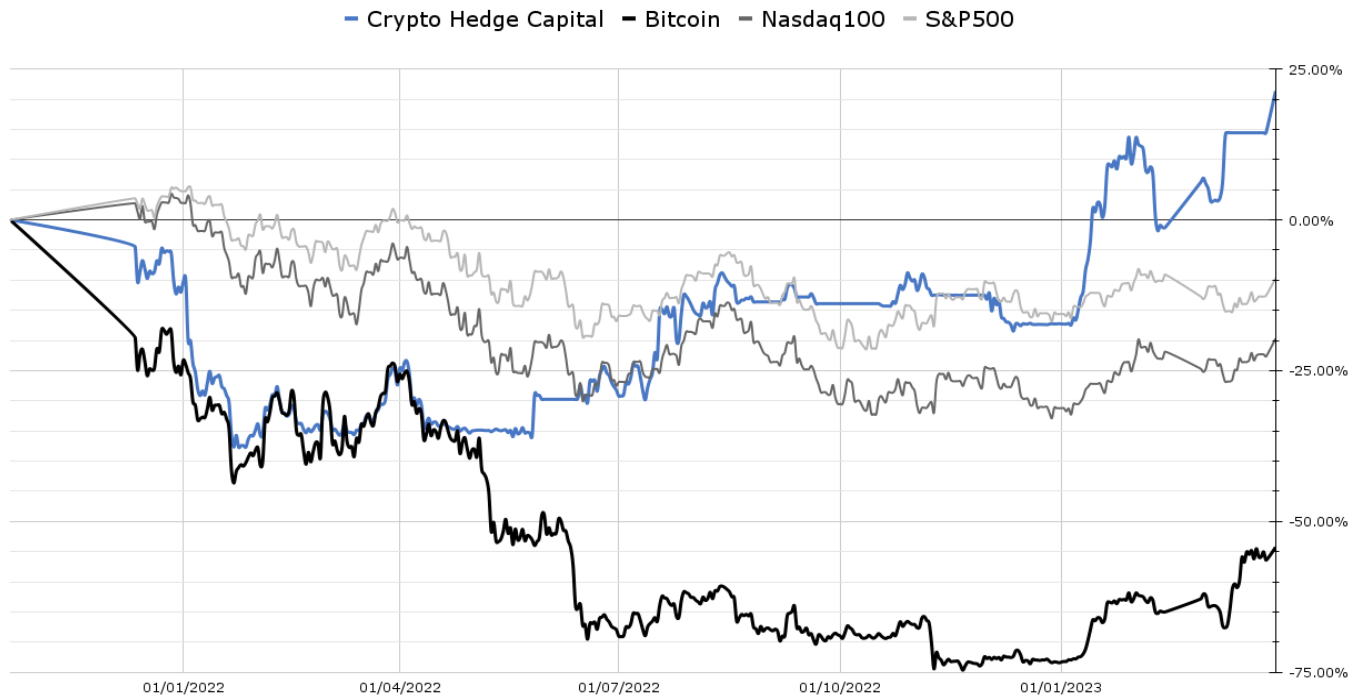

April 15th, 2023, Mexico City.

Investment Report - Third Issue

We are proud to successfully conclude the third issue of Crypto Hedge Capital, with a gross return of 22.74% against US dollars despite the uncertainty and adversities presented in all markets during our investment period.

Not only did we end with a positive performance, but we also outperformed our benchmark Bitcoin by 76.98%, the Nasdaq 100 by 42.42%, and the S&P 500 by 32.42%, positioning the fund in 2021 - 2023 as a much more profitable alternative than passively investing in American indices or digital assets.

PERFORMANCE ANALYSIS

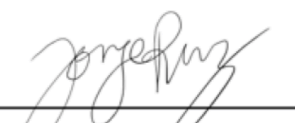

Analyzing the returns of the third issuance of Crypto Hedge Capital, we inform you that the equivalent of your investment in the fund compared to other alternatives would have generated the following losses or gains:

Investment Vehicle	Percentage Amount:	US Dollar Amount:
